IS INTEREST IN VOTING ON THE WANE?

VOTERS SHOW INDIFFERENCE DO NOT EXERCISE PRIVILEGE

Alarming Decrease—Eighty Per Cent Vote Cast For McKinley In 1906—Dwindled To Nearly 20 Per Cent In Some Precincts—It Is The American's Duty To Vote Says Chief Justice C. T. Marshall of the Ohio Supreme Court.

Alarmed by the steadily growing indifference of the American people to the duty of voting, Chief Justice C. T. Marshall of the Ohio supreme court, has promulgated a movement to get the voters out in greater numbers at the November election.

His plan has been unanimously endorsed by the Inter Club Council, of Columbus, which is enlarging its scope to include all other social, civic, religious and political organizations throughout the state in a general campaign to increase the vote of the approaching election.

"We boast, here in America, that the people are the real sovereigns and that public officials are our servants," said Chief Justice Marshall. "But it seems that the people are failing to exercise proper judgment in the choice of their servants or in the supervision of their acts."

"The ballot is the instrument by which the people exercise their sovereignty," continued Chief Justice Marshall, "and the results of our elections should express the choice and the combined wisdom of all the people in the approval of men and measures."

Declaring that we do not have a true expression of the popular will when the affirmative vote is some times as low as 17 per cent of the entire electorate, Chief Justice Marshall cites figures to show how the people are neglecting their duty more than ever before.

"In 1906, when McKinley was elected president, 80 per cent of the people voted," says the chief justice. "In 1908, when Taft was elected only 66 per cent voted, and in 1920, when Harding was elected, a bare 48 per cent went to the polls."

"In local campaigns the percentage frequently falls below 40 per cent. In the state of Washington, a United States senator was elected by the affirmative vote of only 17 per cent of the qualified electors. Some southern states show even smaller percentages."

"Our primary elections are frequently decisive of the issues at the general elections, and yet the vote at primaries often falls below 20 per cent. In the recent primary in New York City for nomination of mayoralty candidates, even after a strenuous and bitter campaign, the Democratic party polled only 50 per cent of its vote and the Republicans less than 30 per cent."

In contrast with these alarming conditions in America, Chief Justice Marshall points out that in English elections for the house of commons the vote ranges from 76 to 82 per cent of the possible total. In the German republic it is the same. In Australia 75 per cent of the people always vote and in New Zealand and Queensland the vote runs as high as 74 per cent. Switzerland, for 20 years, has maintained an average of 76 per cent at all elections.

"It would be impossible to point out a more striking illustration of the growing indifference of the American people than in the matter of voting," says the chief justice. "It suggests the ease with which an organized minority may control and dominate the policies of the majority. It also suggests the possibility that many of our civic ills may be traced to this indifference."

"The people have no right to com-

plain of existing conditions if they will not turn a hand to remedy them. On every side we hear complaints that politics is controlled by bossism but bossism could not live a day if the people would vote and vote intelligently.

"There can be no doubt of the intelligence of American citizenship, or of the soundness of public opinion, or of the fitness of the people for self-government, but there is grave doubt whether the choice of men and the approval of measures thru the exercise of the ballot expresses the average intelligence of the people, or whether it reflects the true public opinion."

Chief Justice Marshall launched his movement to get out the vote in the Civitan clubs, of which he is international president. He will broadcast a short address on the subject from the Ohio State university radio station WEAO at 8 o'clock on the evening of Thursday, October 29.

FORMER PASTOR PASSED AWAY IN COLUMBUS

Rev. George E. Tift Succumbed After Long Illness—Funeral Saturday.

Rev. George E. Tift, 60, retired Methodist minister, died at the home of his son, James C. Tift, 176 North Harris avenue, Columbus, Thursday night after an illness of a year.

Rev. Mr. Tift's last charge was at Summit Station. He formerly was pastor of the West Park M. E. church Columbus for several years. His retirement after 30 years' service was granted by the Central Ohio Methodist Episcopal conference which met last month.

Rev. Tift served as pastor of the First Methodist Episcopal church in the fall of 1919 and served this charge three years.

During his residence in this city, Rev. Tift endeared himself to all our people, regardless of church affiliations and the sympathy of all goes out to the stricken family in their great loss.

He is survived by his widow, Mrs. May Tift; two sons, James C., Columbus and George E. Tift Jr., Mt. Sterling, a daughter, Mrs. Louise Fry, Columbus; two brothers, Charles and William Tift, Cleveland, and four grandchildren.

Rev. Mr. Tift was a Thirty-second degree Mason and a members of the Knights of Pythias.

Funeral services will be held from the West Park M. E. church Saturday afternoon at 2 o'clock. Burial in the new mausoleum at Union cemetery.

PITTSBURGH IS CHAMPION IN WORLD SERIES

Allegheny Hills Rang When Pennant Was Taken From Washington Team.

Nero fiddled as Rome burned. That was many years ago. Thursday 45,000 rabid Pittsburgh fans cheered as a baseball tragedy was enacted when the elements conspired to cheat Walter Johnson, hero, of eighteen campaigns, of the victory that seemed to be his for the asking.

Hills and valleys in Allegheny county echoed and reechoed with the plaudits that greeted the Pirates when they dashed off the field, world champions, having vanquished Washington, 9 to 7, in a contest that was attended by the most unusual weather conditions that ever were inflicted upon the classic of the diamond.

Nevertheless, every fair-minded fan be he American or National league rooter, must give credit to the Pirates for being one of the gamest teams ever to contend for the world title. Apparently outclassed, no more recently than Sunday evening, they proceeded to win two in a row and tie up the series.

Thursday, after granting Washington a four-run lead in the first inning they came back with tons of courage, came within one of tying the count in the third inning, almost surrendered that gain in the fourth, tied the score in the seventh and after Washington again forged to the front in the eighth, those gallant Pirates turned impending defeat into victory in the last half of the same round.

But, no one can blame Pittsburgh rooters for jeering the old master as he slipped and sloshed in the mire. Was it not a day that Pittsburgh had been waiting for during sixteen weary years or since the time that Honus Wagner, now a gray-haired hasbeen, and Babe Adams, now almost a memory, were in their prime?

TAPS SOUNDED FOR VETERAN OF MANY WARS

Ninety Year Old Congressman Passed Away at Home in Toledo Thursday Night.

General Isaac R. Sherwood, Toledo's ninety-year old veteran of the Civil war and former congressman from the Ninth Ohio District, died at 3:44 o'clock Thursday afternoon of pernicious anemia, against which he had fought a losing battle since last summer.

The end came peacefully without his having recovered from unconsciousness into which he lapsed early Wednesday morning.

General Sherwood began failing early in the summer, but his illness did not take on an aggravated aspect until the last two months.

The last time he left his home was on Labor day, when he took a short motor ride in the afternoon.

During the next month, altho unable to leave the apartment, he made it his practice to rise each morning and seat himself near a library window, where he could see the street and where passersby often noticed him. He failed to leave his bed for the first time Sunday, October 4.

Funeral services will be conducted in the Collingwood avenue Presbyterian church at 2 o'clock Monday. He will be buried in Woodlawn cemetery.

Senator Frank B. Willis, a warm friend of Sherwood's, altho of different political affiliations, is expected to give the funeral oration. The prayer service will be conducted by Rev. R. Lincoln Long, pastor of the church, where the general had been a member for years.

On the battlefield, in several state positions in Ohio and as a representative in congress, General Sherwood devoted the greater part of his life to his country and his adopted state. He was one of those tireless humans upon whom age apparently had no effect.

In his public life General Sherwood constantly kept looking forward and going ahead. When, in the eighty-eighth year, he was elected to the lower house of congress for his ninth term, his mental faculties were as active and his interest in public affairs as keen as when he was elected for his first term 50 years before.

General Sherwood fought in 43 battles (was under fire 123 days and had been complimented in orders six times for gallant conduct in battle. He was mustered out of the army June 27, 1865.

Youth Saves Six When Car Goes Into Lake

Armonk, N. Y.—A high school boy, seventeen years of age, was revealed as the modest hero who saved the lives of six persons—three of them children—in a sedan which was crowded off the road here and plunged into Kensico lake.

The boy is Richard Craig, a student at White Plains high school. He was in a car driven by George De Nault, champion sprinter of the high school, a few hundred feet behind the one which went off the road. Seeing the sedan go crashing through the trees down a 20-foot embankment and plunge into 12 feet of water, he jumped out of the car, stripped off his coat and dived in.

He succeeded in opening one of the doors of the submerged car and dragging the children one by one to safety. Then he took all six in his car to White Plains hospital for treatment.

AMUSEMENTS

Comedy, action and romance are ingeniously combined in "Old Howe Week," the new Paramount production starring Thomas Meighan, which opened last night at the Metropolitan theater.

"Old Home Weew" is something more than merely a vehicle for the exploitation of Mr. Meighan's magnetic personality and undeniable histrionic ability. It is a graphic representation of the small town in all its glory.

The story, which was scenarized by Tom Geraghty, is an original one devised by George Ade, famed American humorist. It strikes out along brand new lines, develops a host of delightful complications, sweeps along to an exciting climax and finally winds up in a blaze of love and glory.

Mr. Meighan scores a distinct personal triumph in the part of the small town youth, who poses as a wealthy oil man. His performance is natural, sincere and tremendously human because he has taken the role and made it his own.

Victor Heerman, who directed the picture, has surrounded the story with a distinctive supporting cast, which among others includes Lila Lee, Larry Wheat and Charles Dow Clark.

—WE SAVE YOU MONEY—

The time is passed when the measure of the value of a memorial is quantity. I hope the time has come when that measure is quality. I care not whether the material be marble or granite, its future will be measured by the character of the design. It is quality that has preserved for us the finest examples in painting and sculpture. It is quality that will stamp our imprint upon cemeteries of the future. Simplicity, correct lines and proportions and proper ornamentation are the real fundamentals. A design that is right, material that is lasting and perfect workmanship, spells success for the future of this industry and the beautification of the cemetery. Springfield, —Jealousy over his woman companion, Mrs. Marie Shoup, 17 led Eddie Moore, 25, Marion, Ohio, to hang himself in a tourists' camp near here Thursday night, authorities believe.

Mrs. Shoup, who said she had a husband in Marion, was the object of attentions of other men, police said. Moore, resenting this and rebuffed when he rebuked Mrs. Shoup, hanged himself.

Springfield, —Restlessly pacing her cell, Mrs. Birdie Strome, 49, Friday, refused to discuss her indictments for murder in connection with the death of her 14 year old stepdaughter, Esta Strome of New Carlisle, who died suddenly from strychnine poisoning.

Dayton, —In spite of everything that has been done to reduce traffic accidents in Dayton, this year records show 1054 persons have been injured as against a corresponding period last year when the total was 973.

Cleveland —Fusion in the near future of the Unitarian and Universalist churches, seemed likely Friday following adoption of a resolution to that end by the Unitarian general conference here.

Columbus, —The light frost which hit Ohio a few days ago probably did more good than harm, G. J. West, federal state crop statistician said Friday after a survey of conditions. Pastures were not damaged and orchards were benefited, he said. Only late tomatoes, melons and some sweet corn were injured.

Historic Light Fixture Found in Church Attic

New York.—Missing for 87 years, the great crystal chandelier which hung in St. Paul's chapel from 1766 to 1838 recently was found hidden in the attic of the chapel, where it had been laid away when the chapel last was renovated.

Plans are being made to restore this oldest building of worship in New York city as nearly as possible as it was when George Washington worshipped there, and steps have been taken to utilize the chandelier. Twenty-four smaller chandeliers, given away at the time the big one was placed in the attic, also will be used, if they can be found.

The difference between a walk and a hike is that when you walk, you don't ask for a ride.

FORD AIRPLANE IS POSSIBILITY OF NEAR FUTURE

Many Have Already Begun to
Save Money For the
First Payment.

To no man in the world does the world listen with closer attention than to Henry Ford, when he talks on motors and engines. When the Detroit magnate announces that the air-cooled, 8-cylinder, 200 horse power motor for airplanes is in his shop, ready to back up the new "Ford of the air," the world will accept the statement as a promise that the day of commercial aviation is here.

When the John Wanamaker New York store announces the opening of an airplane department, the public sees at hand the day when the flying Fords may be as common as the flivvers that cumber the ground and congest the vast outdoor space.

Ford's talk on his new airplane sounds like his flivver ads. He says its parts will be accessible, interchangeable and cheap. There will be no adjustments anywhere about it. If a part wears out, the owner can drop downtown to a department store to buy a new part or stop at the corner garage to have the tinkering done. Henry says, too, he has no intention of making airplane motors to sell separately. He expects to use all the motors he can make in his own machines. He never sold a flivver motor or a tractor carburetor separately.

There is the same familiar talk, too, of quantity production. When production started on a new model automobile, it was never able to keep ahead of popular demand. As demand increased, flivver production ran up into the millions. Always Henry was there to meet, if not to anticipate it.

"We'll put all the people into the air whenever they want to fly," he says in the same air of confident nonchalance that he talked in the old days about putting an extra million or two of flivvers on the road. In fact, Henry is more than confident; he waxes positively enthusiastic over the new flying end of the Detroit business. "It's bigger in possibilities than anything else in the world," he says. "It's too big to be one man's contribution to science."

So at last Henry Ford is ready to take in the air and a large proportion of the 12,000,000 flivver owners are ready to take a chance that he knows what he is talking about. Many of them are ready to take possession of the air with him as they have taken possession of the earth, riding in his machines. No one can tell how many of them have already begun to save up their dollars to make the first payment on the "Ford of the air," planning to give the usual batch of notes, due each month, until the end of the next year.

Government investigators are spending time trying to discover why the huge dirigible was wrecked by an Ohio storm. Scientists and politicians are disputing whether national defense can best be promoted by the creation of a single-headed aviation bureau or by retaining aviation subordinate to the army and navy.

These things interest the public to a certain extent. But the big news comes from Henry Ford and his eight-cylinder, air-cooled X-type motor, developing 200 horse power, with cheap interchangeable parts. The ordinary man, as personified in the 12,000,000 flivver owners, cares less about what Colonel Mitchell says about Secretary Wilbur than he does to the answer to the question: "How much will be the first payment on the new Ford flyer?"

The Mitchell-Wilbur controversy may furnish the topic of casual conversation, but what Henry Ford says about his new flyer hits close at home. Henry talks the same language that 12,000,000 other common men talk."—Cleveland Times.

Old German Waterworks Uncovered by Workmen

Potsdam.—Ruins of what is thought to be the foundation of famous waterworks constructed in 1683 to supply Potsdam castle with water were recently discovered during some excavation work.

The foundation is extremely massive and built of sandstone and ancient bricks. Several archeologists declared the ruins represented the waterworks foundations built during the reign of Leopold I. An additional force of workmen has been employed to lay bare as speedily as possible what may be an interesting historical find.

Have a jolly good time. Join the Comic and Character parade Friday night at 8 o'clock. 16octd3.

Success
Success comes through determination, planning, strategy and sacrifice. The wage earners have no royal road to success. They must build their causeway, and it must be constructed with the bricks of experience and the mortar of patience. There may be other pathways seemingly strewn with roses, but that only conceal the thorns and pitfalls.—James M. Lynch in the Typographical Journal.

FIRST NATIONAL BANK OF WOMEN IS IN DISCARD

Have Succumbed to the Lure
of Check Book and Bank
Account.

Columbus, O., Oct. 16, (UP).—Amy R. Hyde, advertising manager for the Union bank of Chicago, has told on her sisters.

"Woman's First National bank is defunct," she told the National Financial Advertisers' convention here.

"Once holding rank as the nation's greatest financial institution, the old stocking bank is hors de combat," she said.

Staid housewives and gay flappers have succumbed to the lure of the check, according to Miss Hyde, who says women no longer keep their money in the teapot, behind the cracker jar or in the woman's First National.

"Women now maintain both savings and checking accounts," Miss Hyde said. "Banking for women has passed the stage of requiring either explanation or exploitation."

A Daring Departure in 1921

.. today, the nation's standard
for small home heating

"BEAUTIFUL, yes, but will it work?" Many questions, like this one, greeted the Heatrola in 1921. It was so different in appearance and operation from anything known before.

But Heatrola "worked!" From the day of the first installation, its success was assured. For Heatrola, handsome as a fine mahogany cabinet, and as easy to keep clean, does the work of a basement furnace! It keeps every room in the house, upstairs and down, cozy and snug in

coldest weather. And requires no more fuel than any stove requires.

Tens of thousands of homes enjoyed Heatrola's furnace comfort last Winter—many thousands more will own Heatrolas before snow flies. Right here in this community, the homes of many of your neighbors are kept warm by this modern heating method. Let us show you these Heatrolas, and tell you how easily you can own one, too. A System of Farming That Brings Health and Prosperity

Every farm, regardless of the method of farming practiced or of the crops raised, should have at least a few good milch cows to provide

- (1) Enough milk, cream and butter for home use;
- (2) Enough skim-milk to raise some calves, pigs and chickens;
- (3) Enough cream or butter to sell to pay, in part or entirely, current living expenses.

This plan has been a "life-saver" for thousands of farmers, especially during the hard times of the past two years. It insures a living, at least, and often other income besides.

Such a plan pays best with a De Laval Cream Separator. It soon pays for itself—and skims cleaner, lasts longer and is easier to operate and clean than any other.

CENTRALIZED SCHOOLS OF PICKAWAY BUSY

Pupils to be Acquainted With Standing by System of Merits and Demerits.

In order to encourage a higher type of school work the high school teachers of Pickaway school have inaugurated a system of merits and demerits governing the activities of the school. Each pupil will be acquainted with his standing each week so he may know wherein he is failing to make good. It is hoped that this system will promote better application and train pupils in the proper use of school time.

Miss Nettie Rader, club leader, will hold a meeting of the "Jolly Boosters" Sewing club at the school Thursday afternoon at 2:30 o'clock.

Plans are being fostered to put on a School Carnival or School Fair at the school early in November probably about November 13.

The program of the Corinthian Literary society of the Pickaway schools was:

Song—America, the Beautiful

The teachers and patrons of Pickaway have been very cordially invited by the Circleville Parent-Teacher association to attend a special meeting Thursday evening at 7:30 o'clock at the Circleville high school auditorium. State speakers of note will be present.

TAKING THE MUSICAL PULSE

Howard Beckes, son of Dr. and Mrs. C. B. Beckes, 1448 Worthington street, because of unusual musicianship, was awarded a scholarship in four and one-half subjects leading to the degree of bachelor of music in a recent scholarship examination held at the Cincinnati Conservatory of Music. He is a pupil of Mabel Dunn Hopkins having taken his beginning work under Mr. Hopkins and is now majoring in violin under the artist teacher, Julian de Pulikowski, a pupil of Jochim and Sevcik and head of the Conservatory of Music at Keiv, Russia, up to the time of the World war. Mr. Beckes will return to Columbus this week-end to assist in a wedding program of music.—Columbus Dispatch.

ORDINANCE NO. 539.

To amend Section 107 of Ordinance No. 184 passed by the Council of the City of Circleville, Ohio, May 20, 1914 and recorded in Ordinance Record "E" on Pages 15 and 16 of the Ordinances of said City.

Be it Ordained by the Council of the City of Circleville, Ohio:

Section 1. That Section 107 of Ordinance No. 184 passed by the Council of the City of Circleville, Ohio, May 20, 1914, be amended to read as follows:

"Section 107. The sustaining of all persons sentenced or confined in the city prison while an inmate thereof, shall be at the expense of the city. The Director of Public Safety shall contract for the furnishing of necessary food, sustenance and supplies for said prisoners; said bills for food shall not exceed thirty cents per meal, and not to exceed two meals per day to each prisoner furnished at 9 o'clock A. M. and 5 o'clock P. M. each day. And for prisoners sentenced to bread and water the charge shall not exceed the actual cost of bread. Before said order is drawn for the payment of food so furnished, the Chief of Police shall certify that the food was furnished and the bills approved by the Director of Public Safety, the bill so certified and approved shall be paid out of the City Treasury. Provided, however, that this Section shall not apply to the payment for food, sustenance and supplies furnished to any person confined in said prison unless upon a charge for the violation of law or the Ordinances of the City; and provided further that nothing herein shall prevent prisoners or their friends from furnishing food, sustenance and supplies for such prisoner under the supervision and inspection of the Chief of Police."

Section 2. That original Section 107 of the Ordinances of the City of Circleville, Ohio, be, and the same is hereby repealed.

Section 3. This ordinance shall take effect and be in full force from and after the earliest period allowed by law. Passed in Council this 7th day of October, A. D. 1925.

HARTMAN THEATER.

"The Rivals," the immortal comedy by Richard Brinsley Sheridan, with an all star cast, comes to the Hartman theater, Columbus, for a return engagement of three days beginning on Thursday, October 15, with a matinee on Saturday.

The cast includes Mrs. Fiske as Mrs. Malaprop, Chauncey Olcott as Sir Lucius O'Trigger, Thomas A. Wise as Sir Anthony Absolute, James T. Powers as Bob Acres, Lotus Robb as Lydia Languish, Jean Ford as Julia Marie Carroll as Lucy, Donn Cook as Captain Jack Absolute, Fred Eric as Faulkland, Gerald Rogers as Fag, George Tawde as David and Herbert Belmore as Thomas.

These players have combined to make a tour of the United States and Canada under the management of George C. Tyler and Hugh Ford, in commemoration of the 150th anniversary of the original production of the play. "The Rivals" is one of the three comedies which are the only survivors of the thousands written between the death of Shakespeare and 1890, which in any sense can be considered favorites of the stage today. "The School for Scandal" by Sheridan, is second and "She Stoops to Conquer" by Oliver Goldsmith the third. Sheridan's wit, humor and racy spirit live today because he wrote, not for a day but for all time.

The text of the play used in the present production is approximately as Sheridan wrote it, the restoration by Harrison Grey Fiske, after comparison with various prompt books of celebrated actors being virtually complete. The play is staged by Mr. Fiske.

Undoubtedly this is a combination of the most distinguished dramatic artists of this country, who are presented in a comedy that has charmed the theatrical world for a century and a half. America may not again witness such an illustrious aggregation in many years to come. Mail orders will be given prompt attention.

LOANS up to \$500

Supplying money for personal use in popular sums, and without the unbusinesslike requirements of having a co-signer or endorser on your note, indicates the progress of modern financing.

Twenty years ago, in order to borrow a moderate sum of money, one had to humble himself to his relatives or friends, and also to return the favor upon request. The evil consequences of this sentimental practice can still be seen today. Many families of former financial prominence are now destitute, because granddad went surety on too many notes and had them to pay.

City Loan Service enables you to borrow on your own security and no endorsers or co-signers are required.

WASHINGTON C. H. SCHOOLS ARE BROKEN INTO

In Same Manner as Lancaster and Circleville Schools, Vandalism Being Repeated Night After Night—Culprits Are Gradually Pushing West.

The Washington C. H. High School building and the Old Central grade building were entered sometime during Monday night, presumably for the express purpose of robbery although the damage done in gaining entrance amounted to considerably more than the money taken.

The thieves were apparently after nothing but money. Practically every teacher's desk in both buildings were forced and ransacked from top to bottom and nothing was taken but the small change that happened to have been left there. No grade records or report sheets have been reported missing. Superintendent Bruner said late Tuesday afternoon after he had made the rounds of all the rooms and teachers.

The actual amount of money taken was not large. One teacher reported thirty cents missing and another lost a dime that was left in her desk among some other odds and ends. In other cases where anything at all was taken, the amounts were correspondingly small.

Despite the fact that the robbers had taken time to go carefully over both of the buildings room by room, they were not so careful in the way they proceeded with their job once they got started at it. Desks that were locked were forced and broken open and the contents scattered about the room and whether the search was rewarded with money or not, papers and books were left in confusion about the floor.

The office of High School Principal Thompson and Superintendent Bruner were not exempt from the huntsmen. In fact they were more rudely treated than the others, for in each case, the outer door being locked, only occasioned the breaking of additional glass. Their desks, too, suffered the same thorough going-over as did those of the teachers, and likewise the monetary reward was small.

At the Old Central building, a window on the west side near the rear wall of the High School building was either forced or raised if left unlocked to permit entrance.

School officials admit they are baffled by the robbery and its attendant vandalism, but at the same time are hopeful that one or more of the slight clues they have been able to uncover may lead to a definite end.

Heat with Distinction

At last it is proved that a home heater can be good looking—ornamental, if you will—as well as a practical heat-producing utility.

The Mueller Furnacette marks the greatest advance in home heating equipment since the invention of the heating stove. It is the joint creation of master furniture designers and skilled heating engineers. There is distinction in every line of its well-balanced, walnut-grained, vitreous enamel cabinet.

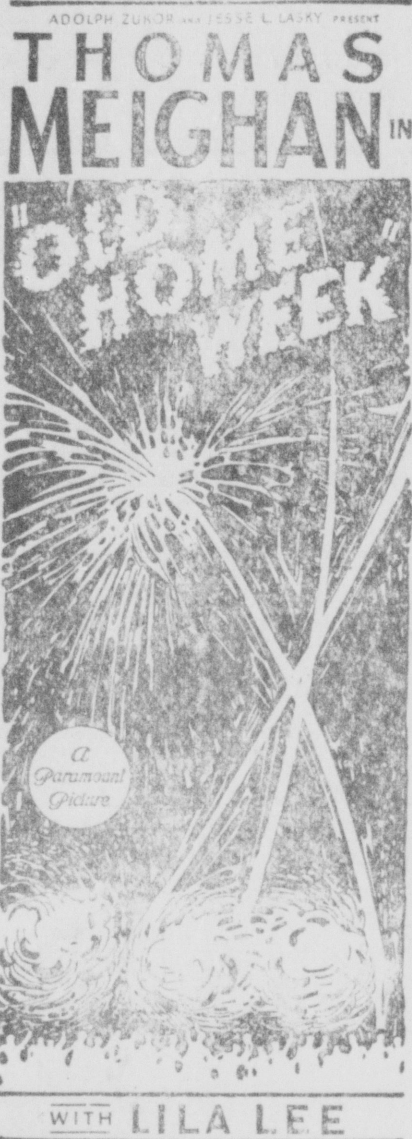

And as for heat—never was there an above-floor heater of any kind that could compare with the Furnacette in heating efficiency! It heats the whole house by continuously re-circulating warm, moist air thru all the rooms. It provides more comfortable, more uniform heat than two or three stoves combined, yet uses no more fuel than an ordinary heating stove.

Sold on convenient monthly payments.

IS INTEREST IN VOTING ON THE WANE?

VOTERS SHOW INDIFFERENCE DO NOT EXERCISE PRIVILEGE

Alarming Decrease—Eighty Per Cent Vote Cast For McKinley In 1906—Dwindled To Nearly 20 Per Cent In Some Precincts—It Is the American's Duty To Vote Says Chief Justice C. T. Marshall of the Ohio Supreme Court.

Alarmed by the steadily growing indifference of the American people to the duty of voting, Chief Justice C. T. Marshall of the Ohio supreme court, has promulgated a movement to get the voters out in greater numbers at the November election.

His plan has been unanimously indorsed by the Inter Club Council, of Columbus, which is enlarging its scope to include all other social, civic, religious and political organizations thruout the state in a general campaign to increase the vote of the approaching election.

"We boast, here in America, that the people are the real sovereigns and that public officials are our servants," said Chief Justice Marshall. "But it seems that the people are failing to exercise proper judgment in the choice of their servants or in the supervision of their acts."

"The ballot is the instrument by which the people exercise their sovereignty," continued Chief Justice Marshall, "and the results of our elections should express the choice and the combined wisdom of all the people in the approval of men and measures."

Declaring that we do not have a true expression of the popular will when the affirmative vote is some times as low as 17 per cent of the entire electorate, Chief Justice Marshall cites figures to show how the people are neglecting their duty more than ever before.

"In 1906, when McKinley was elected president, 80 per cent of the people voted," says the chief justice. "In 1908, when Taft was elected only 66 per cent voted, and in 1920, when Harding was elected, a bare 48 per cent went to the polls."

"In local campaigns the percentage frequently falls below 40 per cent. In the state of Washington, a United States senator was elected by the affirmative vote of only 17 per cent of the qualified electors. Some southern states show even smaller per centages."

"Our primary elections are frequently decisive of the issues at the general elections, and yet the vote at primaries often falls below 20 per cent. In the recent primary in New York City for nomination of mayor-alty candidates, even after a strenuous and bitter campaign, the Democratic party polled only 50 per cent of its vote and the Republicans less than 30 per cent."

In contrast with these alarming conditions in America, Chief Justice Marshall points out that in English elections for the house of commons the vote ranges from 76 to 82 per cent of the possible total. In the German republic it is the same. In Australia 75 per cent of the people always vote and in New Zealand and Queensland the vote runs as high as 74 per cent. Switzerland, for 20 years, has maintained an average of 76 per cent at all elections.

"It would be impossible to point out a more striking illustration of the growing indifference of the American people than in the matter of voting," says the chief justice. "It suggests the ease with which an organized minority may control and dominate the policies of the majority. It also suggests the possibility that many of our civic ills may be traced to this indifference."

"The people have no right to com-

plain of existing conditions if they will not turn a hand to remedy them. On every side we hear complaints that politics is controlled by bossism but bossism could not live a day if the people would vote and vote intelligently."

"There can be no doubt of the intelligence of American citizenship, or of the soundness of public opinion, or of the fitness of the people for self-government, but there is grave doubt whether the choice of men and the approval of measures thru the exercise of the ballot expresses the average intelligence of the people, or whether it reflects the true public opinion."

Chief Justice Marshall launched his movement to get out the vote in the Civitan clubs, of which he is international president. He will broadcast a short address on the subject from the Ohio State university radio station WEOA at 8 o'clock on the evening of Thursday, October 29.

FORMER PASTOR PASSED AWAY IN COLUMBUS

Rev. George E. Tift Succumbed After Long Illness—Funeral Saturday.

Rev. George E. Tift, 60, retired Methodist minister, died at the home of his son, James C. Tift, 176 North Harris avenue, Columbus, Thursday night after an illness of a year.

Rev. Mr. Tift's last charge was at Summit Station. He formerly was pastor of the West Park M. E. church Columbus for several years. His retirement after 30 years' service was granted by the Central Ohio Methodist Episcopal conference which met last month.

Rev. Tift served as pastor of the First Methodist Episcopal church in the fall of 1919 and served this charge three years.

During his residence in this city, Rev. Tift endeared himself to all our people, regardless of church affiliations and the sympathy of all goes out to the stricken family in their great loss.

He is survived by his widow, Mrs. May Tift; two sons, James C., Columbus and George E. Tift Jr., Mt. Sterling, a daughter, Mrs. Louise Fry, Columbus; two brothers, Charles and William Tift, Cleveland, and four grandchildren.

Rev. Mr. Tift was a Thirty-second degree Mason and a member of the Knights of Pythias.

Funeral services will be held from the West Park M. E. church Saturday afternoon at 2 o'clock. Burial in the new mausoleum at Union cemetery.

PITTSBURGH IS CHAMPION IN WORLD SERIES

Allegheny Hills Rang When Pennant Was Taken From Washington Team.

Nero fiddled as Rome burned. That was many years ago. Thursday 45,000 rabid Pittsburgh fans cheered as a baseball tragedy was enacted when the elements conspired to cheat Walter Johnson, hero, of eighteen campaigns, of the victory that seemed to be his for the asking.

Hills and valleys in Allegheny county echoed and reechoed with the plaudits that greeted the Pirates when they dashed off the field, world champions, having vanquished Washington, 9 to 7, in a contest that was attended by the most unusual weather conditions that ever were inflicted upon the classic of the diamond.

Nevertheless, every fair-minded fan be he American or National league rooter, must give credit to the Pirates for being one of the gamest teams ever to contend for the world title. Apparently outclassed, no more recently than Sunday evening, they proceeded to win two in a row and tie up the series.

Thursday, after granting Washington a four-run lead in the first inning they came back with tops of courage, came within one of tying the count in the third inning, almost surrendered that gain in the fourth, tied the score in the seventh and after Washington again forged to the front in the eighth, those gallant Pirates turned impending defeat into victory in the last half of the same round.

But, no one can blame Pittsburgh rooters for jeering the old master as he slipped and slobbered in the mire. Was it not a day that Pittsburgh had been waiting for during sixteen weary years or since the time that Honus Wagner, now a gray-haired hasbeen, and Babe Adams, now almost a memory, were in their prime?

TAPS SOUNDED FOR VETERAN OF MANY WARS

Ninety Year Old Congressman Passed Away at Home in Toledo Thursday Night.

General Isaac R. Sherwood, Toledo's ninety-year old veteran of the Civil war and former congressman from the Ninth Ohio District, died at 3:44 o'clock Thursday afternoon of pernicious anemia, against which he had fought a losing battle since last summer.

The end came peacefully without his having recovered from unconsciousness into which he lapsed early Wednesday morning.

General Sherwood began failing early in the summer, but his illness did not take on an aggravated aspect until the last two months.

The last time he left his home was on Labor day, when he took a short motor ride in the afternoon.

During the next month, altho unable to leave the apartment, he made it his practice to rise each morning and seat himself near a library window, where he could see the street and where passersby often noticed him. He failed to leave his bed for the first time Sunday, October 4.

Funeral services will be conducted in the Collingwood avenue Presbyterian church at 2 o'clock Monday. He will be buried in Woodlawn cemetery.

Senator Frank B. Willis, a warm friend of Sherwood's, altho of different political affiliations, is expected to give the funeral oration. The prayer service will be conducted by Rev. R. Lincoln Long, pastor of the church, where the general had been a member for years.

On the battlefield, in several state positions in Ohio and as a representative in congress, General Sherwood devoted the greater part of his life to his country and his adopted state. He was one of those tireless humans upon whom age apparently had no effect.

In his public life General Sherwood constantly kept looking forward and going ahead. When, in the eighty-eighth year, he was elected to the lower house of congress for his ninth term, his mental faculties were as active and his interest in public affairs as keen as when he was elected for his first term 50 years before.

General Sherwood fought in 43 battles (was under fire 123 days and had been complimented in orders six times for gallant conduct in battle. He was mustered out of the army June 27, 1865.

ON PACIFIC COAST.

Mrs. George R. Haswell is in receipt of a message from her brother, Mark Twain Kirkendall, of Los Angeles, California, saying that George R. Haswell and his dog, "Jorky," have arrive safe. George and the dog left here in a Buick touring car on the first of this month. They made excellent time and Mr. Haswell and his companion spent last Sunday at Albuquerque, New Mexico.

Youth Saves Six When Car Goes Into Lake

Armonk, N. Y.—A high school boy, seventeen years of age, was revealed as the modest hero who saved the lives of six persons—three of them children—in a sedan which was crowded off the road here and plunged into Kensico lake.

The boy is Richard Craig, a student at White Plains high school. He was in a car driven by George De Nault, champion sprinter of the high school, a few hundred feet behind the one which went off the road. Seeing the sedan go crashing through the trees down a 20-foot embankment and plunge into 12 feet of water, he jumped out of the car, stripped off his coat and dived in.

He succeeded in opening one of the doors of the submerged car and dragging the children one by one to safety. Then he took all six in his car to White Plains hospital for treatment.

RECOGNIZED EDUCATION LEADERSHIP

Miss Mary Jane Eaton, of This City, in Charge of Institute in Italy.

Four new members were added to the Woman's Foreign Missionary society roster at their meeting last Thursday afternoon at the home of Mrs. Anna Anderson. They were Mrs. Marie Gibson, Mrs. R. E. Copeland, Mrs. Sarah Corcoran and Mrs. George Smith.

Mrs. L. O. Morgan selected several women to read the "Auto Stories" which testified to the value of the "flivver" in the life and work of the missionary.

The president, Mrs. G. P. Hunsicker, outlined the year's work and decided to have their annual "Rummage Sale, Friday and Saturday, October 30 and 31 at the Parish house.

Miss Flora Dunlap, who with her mother, Mrs. Samuel Dunlap, Circleville, was present, gave an interesting talk concerning the Crandon Institute at Rome, Italy, which she visited this year. Miss Mary Eaton of Circleville, is in charge there and is a recognized leader of education at Rome.

Mrs. Anderson, assisted by Mrs. Smith Hulse, Mrs. H. W. Campbell and Mrs. John Dunlap served dainty refreshments to about twenty-five members.

Mrs. Joe Shaw will entertain next month.—Williamsport News.

Six Reasons Why You Should Buy a Stetson

STYLE:

Stetson is the foremost creator of hat styles in the world, each season setting the pace with a sweeping variety of correct shapes and shades—a Stetson to suit any head or face.

QUALITY:

The blending of flawless materials and deft workmanship gives Stetson its supreme quality—a maximum of wear and beauty or finish.

MATERIALS:

Stetson Hats are made of fur cut from the choicest selection of Beaver, Nutria, Hare and Rabbit skin. The silk bands and bindings are woven by Stetson; the leather sweatbands are especially selected.

DEALERS:

The franchise to sell Stetson Hats is given only to the best stores of each community. The Stetson dealer renders a real service to the man who wants a hat that is both smart and becoming.

WORKMANSHIP:

Workers of the highest skill, in a model factory, blow and blend the fur, and felt it into hats unmatched anywhere. Each Stetson hat is shaped by trained experts—by hand.

VALUES:

Judged by style, quality and wear, a Stetson gives you more value for your money than a hat of any other fine make in the world.

AMUSEMENTS
Comedy, action and romance are ingeniously combined in "Old Howe Week," the new Paramount production starring Thomas Meighan, which opened last night at the Metropolitan theater.
"Old Home Weew" is something more than merely a vehicle for the exploitation of Mr. Meighan's magnetic personality and undeniable histrionic ability. It is a graphic representation of the small town in all its glory.
The story, which was scenarized by Tom Geraghty, is an original one devised by George Ade, famed American humorist. It strikes out along brand new lines, develops a host of delightful complications, sweeps along to an exciting climax and finally winds up in a blaze of love and glory.
Mr. Meighan scores a distinct personal triumph in the part of the small town youth, who poses as a wealthy oil man. His performance is natural, sincere and tremendously human because he has taken the role and made it his own.
Victor Heerman, who directed the picture, has surrounded the story with a distinctive supporting cast, which among others includes Lila Lee, Larry Wheat and Charles Dow Clark.

The time is passed when the measure of the value of a memorial is quantity. I hope the time has come when that measure is quality. I care not whether the material be marble or granite, its future will be measured by the character of the design. It is quality that has preserved for us the finest examples in painting and sculpture. It is quality that will stamp our imprint upon cemeteries of the future. Simplicity, correct lines and proportions and proper ornamentation are the real fundamentals. A design that is right, material that is lasting and perfect workmanship, spells success for the future of this industry and the beautification of the cemetery. Will you let me help you select the memorial for your lot. Call at show room. **NO AGENTS.**

FORD AIRPLANE IS POSSIBILITY OF NEAR FUTURE

Many Have Already Begun to
Save Money For the
First Payment.

To no man in the world does the world listen with closer attention than to Henry Ford, when he talks on motors and engines. When the Detroit magnate announces that the air-cooled, 8-cylinder, 200 horse power motor for airplanes is in his shop, ready to back up the new "Ford of the air," the world will accept the statement as a promise that the day of commercial aviation is here.

When the John Wanamaker New York store announces the opening of an airplane department, the public sees at hand the day when the flying Fords may be as common as the flivvers that cumber the ground and congest the vast outdoor space.

Ford's talk on his new airplane sounds like his flivver ads. He says its parts will be accessible, interchangeable and cheap. There will be no adjustments anywhere about it. If a part wears out, the owner can drop downtown to a department store to buy a new part or stop at the corner garage to have the tinkering done. Henry says, too, he has no intention of making airplane motors to sell separately. He expects to use all the motors he can make in his own machines. He never sold a flivver motor or a tractor carburetor separately.

There is the same familiar talk, too, of quantity production. When production started on a new model automobile, it was never able to keep ahead of popular demand. As demand increased, flivver production ran up into the millions. Always Henry was there to meet, if not to anticipate it.

"We'll put all the people into the air whenever they want to fly," he says in the same air of confident nonchalance that he talked in the old days about putting an extra million or two of flivvers on the road. In fact, Henry is more than confident; he waxes positively enthusiastic over the new flying end of the Detroit business. "It's bigger in possibilities than anything else in the world," he says. "It's too big to be one man's contribution to science."

So at last Henry Ford is ready to take in the air and a large proportion of the 12,000,000 flivver owners are ready to take a chance that he knows what he is talking about. Many of them are ready to take possession of the air with him as they have taken possession of the earth, riding in his machines. No one can tell how many of them have already begun to save up their dollars to make the first payment on the "Ford of the air," planning to give the usual batch of notes, due each month, until the end of the next year.

Government investigators are spending time trying to discover why the huge dirigible was wrecked by an Ohio storm. Scientists and politicians are disputing whether national defense can best be promoted by the creation of a single-headed aviation bureau or by retaining aviation subordinate to the army and navy.

These things interest the public to a certain extent. But the big news comes from Henry Ford and his eight-cylinder, air-cooled X-type motor, developing 200 horse power, with cheap interchangeable parts. The ordinary man, as personified in the 12,000,000 flivver owners, cares less about what Colonel Mitchell says about Secretary Wilbur than he does to the answer to the question: "How much will be the first payment on the new Ford flyer?"

The Mitchell-Wilbur controversy may furnish the topic of casual conversation, but what Henry Ford says about his new flyer hits close at home. Henry talks the same language that 12,000,000 other common men talk."—Cleveland Times.

Old German Waterworks Uncovered by Workmen

Potsdam.—Ruins of what is thought to be the foundation of famous waterworks constructed in 1683 to supply Potsdam castle with water were recently discovered during some excavation work.

The foundation is extremely massive and built of sandstone and ancient bricks. Several archeologists declared the ruins represented the waterworks foundations built during the reign of Leopold I. An additional force of workmen has been employed to lay bare as speedily as possible what may be an interesting historical find.

Have a jolly good time. Join the Comic and Character parade Friday night at 8 o'clock. 16octd3.

Success

Success comes through determination, planning, strategy and sacrifice. The wage earners have no royal road to success. They must build their causeway, and it must be constructed with the bricks of experience and the mortar of patience. There may be other pathways seemingly strewn with roses, but that only conceal the thorns and pitfalls.—James M. Lynch in the Typographical Journal.

FIRST NATIONAL BANK OF WOMEN IS IN DISCARD

Have Succumbed to the Lure
of Check Book and Bank
Account.

Columbus, O., Oct. 16, (UP).—Amy R. Hyde, advertising manager for the Union bank of Chicago, has told on her sisters.

"Woman's First National bank is defunct," she told the National Financial Advertisers' convention here.

"Once holding rank as the nation's greatest financial institution, the old stocking bank is hors de combat," she said.

Staid housewives and gay flappers have succumbed to the lure of the check, according to Miss Hyde, who says women no longer keep their money in the teapot, behind the cracker jar or in the woman's First National.

"Women now maintain both savings and checking accounts," Miss Hyde said. "Banking for women has passed the stage of requiring either explanation or exploitation."

A Daring Departure in 1921

..today, the nation's standard
for small home heating

"BEAUTIFUL, yes, but will it work?" Many questions, like this one, greeted the Heatrola in 1921. It was so different in appearance and operation from anything known before.

But Heatrola "worked!" From the day of the first installation, its success was assured. For Heatrola, handsome as a fine mahogany cabinet, and as easy to keep clean, does the work of a basement furnace! It keeps every room in the house, upstairs and down, cozy and snug in

coldest weather. And requires no more fuel than any stove requires.

Tens of thousands of homes enjoyed Heatrola's furnace comfort last Winter—many thousands more will own Heatrolas before snow flies. Right here in this community, the homes of many of your neighbors are kept warm by this modern heating method. Let us show you these Heatrolas, and tell you how easily you can own one, too. CENTRALIZED SCHOOLS OF PICKAWAY BUSY

Pupils to be Acquainted With Standing by System of Merits and Demerits.

In order to encourage a higher type of school work the high school teachers of Pickaway school have inaugurated a system of merits and demerits governing the activities of the school. Each pupil will be acquainted with his standing each week so he may know wherein he is failing to make good. It is hoped that this system will promote better application and train pupils in the proper use of school time.

Miss Nettie Rader, club leader, will hold a meeting of the "Jolly Boosters" Sewing club at the school Thursday afternoon at 2:30 o'clock.

Plans are being fostered to put on a School Carnival or School Fair at the school early in November probably about November 13.

The program of the Corinthian Literary society of the Pickaway schools was:

Song—America, the Beautiful
President's Address
..... Charles Armstrong
History of Our Name
..... David Speakman
Dialogue—Sitting for a Picture—
Ruth Krider, Mary Ellen Phillips,
Mary Valentine, Margaret McKenzie,
Harold Wolford

Musical Reading
..... Mary Ellyn Phillips
Dialogue—Good-Bye—
Odessa Conaway, Virginia E. Hall
Song—Rowing Not Drifting
Criticism by Critic

The teachers and patrons of Pickaway have been very cordially invited by the Circleville Parent-Teacher association to attend a special meeting Thursday evening at 7:30 o'clock at the Circleville high school auditorium. State speakers of note will be present.

TAKING THE MUSICAL PULSE

Howard Beckes, son of Dr. and Mrs. C. B. Beckes, 1448 Worthington street, because of unusual musicianship, was awarded a scholarship in four and one-half subjects leading to the degree of bachelor of music in a recent scholarship examination held at the Cincinnati Conservatory of Music. He is a pupil of Mabel Dunn Hopkins having taken his beginning work under Mr. Hopkins and is now majoring in violin under the artist teacher, Julian de Pulikowski, a pupil of Jochim and Seveik and head of the Conservatory of Music at Keiv, Russia, up to the time of the World war. Mr. Beckes will return to Columbus this week-end to assist in a wedding program of music.—Columbus Dispatch.

ORDINANCE NO. 539.

To amend Section 107 of Ordinance No. 184 passed by the Council of the City of Circleville, Ohio, May 20, 1914 and recorded in Ordinance Record "E" on Pages 15 and 16 of the Ordinances of said City.

Be it Ordained by the Council of the City of Circleville, Ohio:—

Section 1. That Section 107 of Ordinance No. 184 passed by the Council of the City of Circleville, Ohio, May 20, 1914, be amended to read as follows:

"Section 107. The sustaining of all persons sentenced or confined in the city prison while an inmate thereof, shall be at the expense of the city. The Director of Public Safety shall contract for the furnishing of necessary food, sustenance and supplies for prisoners; said bills for food shall not exceed thirty cents per meal, and not to exceed two meals per day to each prisoner furnished at 9 o'clock A. M. and 5 o'clock P. M. each day. And for prisoners sentenced to bread and water the charge shall not exceed the actual cost of bread. Before said order is drawn for the payment of food so furnished, the Chief of Police shall certify that the food was furnished and the bills approved by the Director of Public Safety; the bill so certified and approved shall be paid out of the City Treasury. Provided, however, that this Section shall not apply to the payment for food, sustenance and supplies furnished to any person confined in said prison unless upon a charge for the violation of law or the Ordinances of the City; and provided further that nothing herein shall prevent prisoners or their friends from furnishing food, sustenance and supplies for such prisoner under the supervision and inspection of the Chief of Police."

Section 2. That original Section 107 of the Ordinances of the City of Circleville, Ohio, be, and the same is hereby repealed.

Section 3. This ordinance shall take effect and be in full force from and after the earliest period allowed by law. Passed in Council this 7th day of October, A. D. 1925.

L. T. SHANER
President Pro Tem of Council.
Fred R. Nicholas, clerk of Council.
Approved by me this 7th day of October, A. D. 1925.

A System of Farming That Brings Health and Prosperity

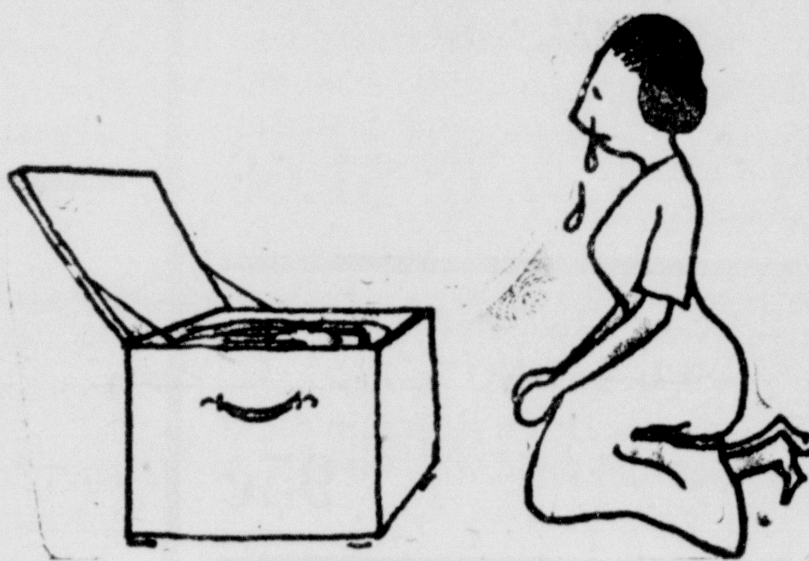

Every farm, regardless of the method of farming practiced or of the crops raised, should have at least a few good milch cows to provide

- (1) Enough milk, cream and butter for home use;
- (2) Enough skim-milk to raise some calves, pigs and chickens;
- (3) Enough cream or butter to sell to pay, in part or entirely, current living expenses.

This plan has been a "life-saver" for thousands of farmers, especially during the hard times of the past two years. It insures a living, at least, and often other income besides.

Such a plan pays best with a De Laval Cream Separator. It soon pays for itself—and skims cleaner, lasts longer and is easier to operate and clean than any other.

"The Rivals," the immortal comedy by Richard Brinsley Sheridan, with an all star cast, comes to the Hartman theater, Columbus, for a return engagement of three days beginning on Thursday, October 15, with a matinee on Saturday.

The cast includes Mrs. Fiske as Mrs. Malaprop, Chauncey Olcott as Sir Lucius O'Trigger, Thomas A. Wise as Sir Anthony Absolute, James T. Powers as Bob Acres, Lotus Robb as Lydia Languish, Jean Ford as Julia Marie Carroll as Lucy, Donn Cook as Captain Jack Absolute, Fred Eric as Faulkland, Gerald Rogers as Fag, George Tawde as David and Herbert Belmore as Thomas.

These players have combined to make a tour of the United States and Canada under the management of George C. Tyler and Hugh Ford, in commemoration of the 150th anniversary of the original production of the play. "The Rivals" is one of the three comedies which are the only survivors of the thousands written between the death of Shakespeare and 1890, which in any sense can be considered favorites of the stage today. "The School for Scandal" by Sheridan, is second and "She Stoops to Conquer" by Oliver Goldsmith the third. Sheridan's wit, humor and racy spirit live today because he wrote, not for a day but for all time.

The text of the play used in the present production is approximately as Sheridan wrote it, the restoration by Harrison Grey Fiske, after comparison with various prompt books of celebrated actors being virtually complete. The play is staged by Mr. Fiske.

Undoubtedly this is a combination of the most distinguished dramatic artists of this country, who are presented in a comedy that has charmed the theatrical world for a century and a half. America may not again witness such an illustrious aggregation in many years to come. Mail orders will be given prompt attention.

SCHOOL LAD IS PAINFULLY HURT

Carl Dickson, 10 year old son of Ray Dickson, living near Amanda, received a badly injured wrist when he fell from a swing at the Prairie school Tuesday afternoon. LOANS up to \$500

Supplying money for personal use in popular sums, and without the unbusinesslike requirements of having a co-signer or endorser on your note, indicates the progress of modern financing.

Twenty years ago, in order to borrow a moderate sum of money, one had to humble himself to his relatives or friends, and also to return the favor upon request. The evil consequences of this sentimental practice can still be seen today. Many families of former financial prominence are now destitute, because granddad went surety on too many notes and had them to pay.

City Loan Service enables you to borrow on your own security and no endorsers or co-signers are required.

WASHINGTON C. H. SCHOOLS ARE BROKEN INTO

In Same Manner as Lancaster and Circleville Schools, Vandalism Being Repeated Night After Night—Culprits Are Gradually Pushing West.

The Washington C. H. High School building and the Old Central grade building were entered sometime during Monday night, presumably for the express purpose of robbery although the damage done in gaining entrance amounted to considerably more than the money taken.

The thieves were apparently after nothing but money. Practically every teacher's desk in both buildings were forced and ransacked from top to bottom and nothing was taken but the small change that happened to have been left there. No grade records or report sheets have been reported missing. Superintendent Bruner said late Tuesday afternoon after he had made the rounds of all the rooms and teachers.

The actual amount of money taken was not large. One teacher reported thirty cents missing and another lost a dime that was left in her desk among some other odds and ends. In other cases where anything at all was taken, the amounts were correspondingly small.

Despite the fact that the robbers had taken time to go carefully over both of the buildings room by room, they were not so careful in the way they proceeded with their job once they got started at it. Desks that were locked were forced and broken open and the contents scattered about the room and whether the search was rewarded with money or not, papers and books were left in confusion about the floor.

The office of High School Principal Thompson and Superintendent Bruner were not exempt from the hunters. In fact they were more rudely treated than the others, for in each case, the outer door being locked, only occasioned the breaking of additional glass. Their desks, too, suffered the same thorough going-over as did those of the teachers, and likewise the monetary reward was small.

At the Old Central building, a window on the west side near the rear wall of the High School building was either forced or raised if left unlocked to permit entrance.

School officials admit they are baffled by the robbery and its attendant vandalism, but at the same time are hopeful that one or more of the slight clues they have been able to uncover may lead to a definite end.

BOUND OVER TO GRAND JURY

Joe See and son, Blenn, of Circleville, pleaded not guilty to Mayor Alspach, this afternoon, when arraigned on the charge of stealing chickens from a Fairfield farm. Both were bound over to the grand jury under bond of \$1,000 and placed in the county jail in default of payment.—Lancaster Eagle.

Heat with Distinction

At last it is proved that a home heater can be good looking—ornamental, if you will—as well as a practical heat-producing utility.

The Mueller Furnacette marks the greatest advance in home heating equipment since the invention of the heating stove. It is the joint creation of master furniture designers and skilled heating engineers. There is distinction in every line of its well-balanced, walnut-grained, vitreous enamel cabinet.

And as for heat—never was there an above-floor heater of any kind that could compare with the Furnacette in heating efficiency! It heats the whole house by continuously re-circulating warm, moist air thru all the rooms. It provides more comfortable, more uniform heat than two or three stoves combined, yet uses no more fuel than an ordinary heating stove.

Sold on convenient monthly payments.

The Extravagance of Cheapness!

If one has money to waste on clothing, it may be all right to buy some of the so called "cheap" goods that are so freely advertised.

But comparatively few people can afford this form of extravagance. The man who is careful of his expenditures is not wasting money on poorly made ill-fitting clothes whose only attraction is a low first cost.

However, the shrewd and discerning buyers have contributed to our steady growth. The season's Values. Quality and dependability.
